DETAILED ACTION

The following is an examiner's statement of reasons for allowance: The present invention is directed to a speaker module with dual diaphragms and light emitting section. Independent claims 1 and 8 identify the uniquely distinct feature of a passive diaphragm coupled to a panel inside a frame portion and acoustically coupled with an active diaphragm in a hermetic space and a light emitting section configured to emit light from outside the frame portion as discussed on page 8 of the applicant's remarks submitted on 12/29/06 in combination with all the disclosed limitations of claims 1 and 8. The closest prior art, Saiki (US 2003/0174849 A1) teaches a passive diaphragm driven by an active diaphragm and a light emitting means mounted on a base board or the diaphragm but fails to teach a hermetic space and a light emitting section for emitting light from outside the frame portion. The prior art fails to anticipate or render the independent claims obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian Ensey whose telephone number is 571-272-7496. The examiner can normally be reached on Monday - Friday 6:30 AM - 3:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sinh Tran can be reached on 571-272-7564. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
